## INTRODUCTION

This study examines campaign finance activity undertaken by candidates for the Massachusetts Senate and House of Representatives (known collectively as The General Court) in calendar year 2024. The Office of Campaign and Political Finance has issued a report of this type after every state election since 1990.

The information contained in this legislative study is based on data compiled from campaign finance reports electronically filed by candidates and treasurers of political committees organized on behalf of candidates for the Massachusetts Senate and House. In 2024, 312 candidates sought legislative office and filed disclosure reports with OCPF: 61 running for 40 Senate seats, and 251 seeking one of 160 House seats.

Legislative candidates and their committees are in the depository system of reporting. Candidates file deposit reports with OCPF to disclose receipts (contributions). A bank files monthly reports showing total receipts, and itemizes expenditures based on check and debit card activity.

The Office of Campaign and Political Finance (OCPF) is an independent state agency that administers Massachusetts General Law Chapter 55, the campaign finance law. The law provides for disclosure and regulation of campaign finance activity on the state, county and municipal levels. The reports filed by state and county candidates and committees are available on the office's web site at [ocpf.us](http://ocpf.us).

This study was compiled and written based on information filed by candidates, committees and banks. Some totals in this study may change as amendments are filed. Those seeking further information on the study or any other facet of the Massachusetts campaign finance law may contact the Office of Campaign and Political Finance by e-mailing [OCPF@mass.gov](mailto:OCPF@mass.gov).
